2024(第三届)新能源航空国际论坛 3rd New Energy Aviation International Forum 2024

Overview

New energy aviation and low-altitude economy have the same intrinsic development requirements and possess huge market potential and broad development prospects.

The conference was co-hosted by Chinese Society of Aeronautics and Astronautics, Chinese Society of Aeronautical Education and Chinese Aeronautical Establishment, co-organized by Aero Engine

Academy of China, COMAC Beijing Aircraft Technology Research Institute, supported by Technical Committee of Aviation Fluid Power Transmission and Control, CSAA, Committee of Global Talents Development, CSAE, collaborate with Chinese Journal of Power Sources, organized by Galleon (Shanghai) Media Co., Ltd..

A total of 20 speeches were delivered and 1 panel discussion was organised, attracting the participation of more than 30 enterprises, with more than 200 representatives from the government, bureaus, aircraft manufacturers, eVTOL enterprises, aircraft power system, power supply system, flight control system developers, scientific research institutes, institutions of higher learning, investment and financing institutions.

Participants said that through this event, they further understood the current hotspots of new energy aviation industry, met new partners and found new business

opportunities. We hope to add to the devel opment of China's new energy aviation by building a platform for technical exchanges, strengthening the interaction between buyers and suppliers, actively solving the problems in the development of the industry through the collision of ideas, and helping the industry to develop steadily.
