# Overview

As the core link of the aviation industry chain, technological innovation and industrial upgrading of commercial aircraft engines are of great significance to promoting the sustainable development of the aviation industry.

The 9th Annual Commercial Aero Engine Technology Congress was successfully held on 27th-28th, March in Taicang City, Jiangsu Province. The congress was co-hosted by Shanghai Society of Aeronautics and AECC Commercial Aircraft Engine Co., Ltd., supported by Chinese Society of Aeronautics and Astronautics, Commercial Aircraft Corporation of China, China Eastern Airlines, Taicang Industrial Promotion Co., Ltd., BAOWU Special Metallurgy Co., Ltd., organized by Prediction and Health Management Branch of CSAA and Galleon (Shanghai) Consulting Co., Ltd., journal supported by Aerospace Power, Advances in Aeronautical Science and Engineering, Gas Turbine Experiment and Research, Journal of Materials Engineering, Journal of Aeronautical Materials.

A total of 19 experts and scholars made presentations, 19 speeches were delivered and 1 panel discussion was organised, attracting more than 120 enterprises to participate, with more than 300 representatives from government agencies, engine manufacturers, renowned domestic and international universities, and advanced technology suppliers attending the conference to jointly help China's aerospace power integrate into the global aviation ecosystem at a more steady pace and write a new chapter in China's commercial aero engine business.

Participants said that through this event, they further understood the current hot spots of Aero Engine industry, met new partners and found new business opportunities. We hope to add to the development of China's Aero Engine industry by building a platform for technical exchanges, strengthening the interaction between buyers and suppliers, actively solving the problems in the development of the industry through the collision of ideas, and helping the industry to develop steadily.

## Testimonials

### AECC South Industry Company Limited

The congress was successfully held, which is of positive significance for promoting innovation in civil aviation technology and industrial upgrading.

### AVIC Nanjing Aero Power Co., Ltd.

The theme is very good, combined with the current situation and future direction, artificial intelligence is a worth exploring the direction of expansion.

### Civil Aviation Flight University of China

The congress was informative, thematic, professional and inspirational.
